ENVIRONMENT MANAGEMENT AND PRODUCTIVITY

DURATION 3 HRS

M MARKS

17TH April 2011

Section : Environmental Management

N.B.:- i) Question No. 1 is **COMPULSORY**. Out of the remaining attempt any **TWO**.

ii) All Questions equal marks.

iii) Marks are reserved for NEATNESS and QUALITY of answers.

iv) Simple labelled diagrams and relevant examples, wherever applicable, will be appreciated.

v) Please start every answer on a **NEW PAGE**.

vi) **Do not write** anything on the Question Paper.

1. Give an overview of the present-day Energy scenario in India, which is poised to become a "Developed country" in the current decade. What are the options open to us and why?
2. What do you understand by the "Indian Environmental Movement"? What were the factors that contributed to its growth?
3. How did "Hivare Bazar" transform itself from a state of near-total degradation to an 'Adarsh Gaon' with several dozen millionaires?
4. What are "Ozone holes"? Explain the exact mechanism by which the ozone layer gets destroyed in the stratosphere.
5. Write short notes on (any **TWO**)
 - a) Ecological Deficit
 - b) Wind energy
 - c) Greenhouse gases
 - d) "Nani Dehera"
